

NOT MIRRORED

As it reads. Print this sheet on a printable fabric sheet, or send it to a label printer: the artwork goes onto the fabric the way it prints. **Not for iron-on transfer paper**, which takes sheet 2.

DRESS 1

COLLAR 1

The Raven's Ledger

DRESS · SIZE 10
100% polyester crepe satin, sleeves 100% nylon tulle

Hand wash cold, collar off. Do not wring. Iron the satin reverse only, never the tulle.
Made in Australia

The Raven's Ledger

COLLAR · NECK 38 CM
100% cotton

Machine wash cold, gentle cycle. Snap off before washing.
Made in Australia

DRESS 2

COLLAR 2

The Raven's Ledger

DRESS · SIZE 10
100% polyester crepe satin, sleeves 100% nylon tulle

Hand wash cold, collar off. Do not wring. Iron the satin reverse only, never the tulle.
Made in Australia

The Raven's Ledger

COLLAR · NECK 38 CM
100% cotton

Machine wash cold, gentle cycle. Snap off before washing.
Made in Australia

DRESS 3

COLLAR 3

The Raven's Ledger

DRESS · SIZE 10
100% polyester crepe satin, sleeves 100% nylon tulle

Hand wash cold, collar off. Do not wring. Iron the satin reverse only, never the tulle.
Made in Australia

The Raven's Ledger

COLLAR · NECK 38 CM
100% cotton

Machine wash cold, gentle cycle. Snap off before washing.

OVERSKIRT 1

OVERSKIRT 2

The Raven's Ledger

OVERSKIRT · WAIST 68 CM
100% nylon tulle on a polyester band

Hand wash cold. Do not wring. Hook off the dress before washing.
Made in Australia

The Raven's Ledger

OVERSKIRT · WAIST 68 CM
100% nylon tulle on a polyester band

Hand wash cold. Do not wring. Hook off the dress before washing.
Made in Australia

MIRRORED

Reversed for iron-on transfer paper for light fabrics, which prints face down. The artwork reads backwards here and reads correctly once pressed. **Do not also mirror in the printer driver.** A fabric sheet or a label printer takes sheet 1 instead.

REFERENCE Never mirrored. This is where the copy and the symbols are read and checked before either print sheet goes onto stock. **Print it on plain paper only.** Sheets 1 and 2 carry the crop marks and the full run.

AT TRUE SIZE - 71 × 48 MM PATCH, 55 × 36 MM RULED BOX

Dress label, as it reads in the left side seam.

Overskirt label, inside the band at the opening.

Collar label, inside the stand at centre back.

ONE LAYOUT, THREE LABELS

- Every label runs the same six lines: wordmark, piece and size, fibre content, the five care symbols, a care note, and the country of origin. Only the words and the symbols change.
- The five symbols are in the order the care standard uses: wash, bleach, tumble dry, natural dry, iron. A crossed symbol means do not.
- The note carries only what a symbol cannot say: separately, collar off, satin reverse only.

AT 150 PER CENT - FOR PROOFREADING THE COPY AND THE SYMBOLS

DRESS - CHECK BEFORE PRINTING SHEET 1 OR 2

- The size reads the same here and on page 7 of the folio. Both take it from the gownSize prop.
- The symbols agree with the care on page 12: hand wash, no bleach, no tumble dry, dry flat in shade, cool iron. The note limits the iron to the satin reverse.
- The three care rows differ on purpose. The collar is cotton and takes a machine and a warm iron; the dress and overskirt are synthetic, and the overskirt is never ironed.
- The enlargement is the same markup scaled, so what reads here is what prints.

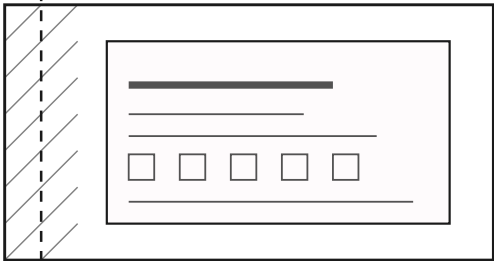

PRODUCTION ITEM 3 OF 4

Product labels
dress, overskirt and collar

Patch, cut	71 × 48 mm, white
Ruled box, printed	55 × 36 mm
Seam allowance	10 mm left edge, 6 mm elsewhere, blank
Quantity	3 dress, 3 collar, 2 overskirt printed; one of each needed
Placement	Dress: left side seam below the waist. Overskirt: inside the band at the left opening. Collar: inside the stand at centre back
Colour	Ink black only, 300 dpi
Stock	Printable cotton or polyester sheet, or iron-on transfer onto white polyester, or a label printer's own white stock

THE LABEL ON ITS PATCH

10 mm caught in the side seam - stitch on the dashes

55 × 36 mm printed on a 71 × 48 mm patch

THE ALLOWANCE IS BLANK ON EVERY ROUTE. The cell on sheets 1 and 2 is the patch, and only the ruled box inside it carries ink. No cut line, fold line or stitch line is printed in the allowance, so nothing shows through the fold on a fabric sheet and nothing transfers from film that should not.

SYMBOLS FIRST, WORDS FOR THE REST. The five symbols carry wash, bleach, tumble dry, natural dry and iron, in that order. The note under them carries only what a symbol cannot say. They are drawn on a 24 unit grid at a 1.4 stroke and hold at 5.5 mm; check them on the plain-paper proof before printing on stock.

TWO WAYS ONTO THE FABRIC

The same eight labels are printed twice. Sheet 1 is the artwork as it reads, for the routes where the print itself becomes the label. Sheet 2 is the artwork reversed, for the route where the print is pressed face down onto a patch. Print one sheet or the other, never both.

AS IT READS - SHEET 1

- Printable fabric sheet.** Print on an A4 printable cotton or polyester sheet. Peel the backing and cut on the crop marks. The sheet is the patch; there is nothing to transfer.
- Label printer.** Send sheet 1 as a PDF and ask for 71 × 48 mm finished on white polyester or satin, artwork placed as shown, edges sealed. Any reversing is their job.

MIRRORED - SHEET 2

- Iron-on transfer.** Print on transfer paper for **light** fabrics; it is pressed face down, so the reversed artwork reads correctly on the patch. Cut 1.5 mm outside the ruled box. Press onto a 71 × 48 mm patch of white polyester with a dry iron, no steam, synthetic setting, on a hard flat surface, from the lowest heat that bonds. Peel to the paper's instruction.

BEFORE EITHER SHEET GOES ON STOCK

- Print at 100 per cent, never fit to page; the patches are at true size.
- Proof once on plain paper and measure the ruled box: 55 mm across. Read sheet 3 for the copy and the symbols.
- Never mirror in the printer driver. Each sheet carries one orientation and states it.

STITCHING IN

- Seal the patch edges: a lighter for polyester, a narrow zigzag for cotton.
- Position the dress label on the **left** side seam below the waist, the overskirt label inside the band at the left opening, and the collar label inside the stand at centre back, hidden when the collar is worn.
- Turn the 6 mm allowance under on the top, bottom and right edges; press lightly from the reverse, never over the print.
- Catch the 10 mm left allowance in the seam and stitch the other three folded edges down by hand, close to the fold.

PAGE 7 SHOWS THE SAME COMPONENT CARE IN WORDS. The same component sizes, fibres, and care, enlarged for reading. Change the size, the fibre, a symbol or the note in one place and change it in both, or the folio contradicts the garment.
